

Individual Assignments

AI Diary (5%)

You are expected to maintain an [AI Diary](#) throughout the quarter – a weekly log of how you use AI coding tools in your coursework. This starts Week 1 and is submitted during finals week.

Check-Off Assignments (25%)

Check-off assignments are individual exercises that verify your understanding of key concepts and tools. Your lowest check-off score will be dropped.

Each check-off includes a hands-on task – you will build something and demonstrate your understanding to a peer. To sign off on a completed check-off, use the Google Sheet linked in the [Canvas assignment](#).

Week	Check-Off	Phase
2	Running Web API + API Testing	Back-End
3	Proxy API	Back-End
4	Prisma Intro	Back-End
5	Auth-Squared	Back-End
6	React Tutorial	Front-End
7	Next.js Foundations	Front-End
